Chamber Says "Brockton Deserves to be Considered"

Urges "YES" Vote May 12 for Destination Resort Gaming

The Metro South Chamber of Commerce Board of Directors believes Brockton deserves consideration for a resort destination gaming facility on the site of the Fairgrounds. A "Yes" vote on May 12 will allow Brockton to be considered.

YES FOR BROCKTON

The proposal features twenty five acres of resort amenities, gaming and entertainment. Direct investment is projected to be \$650 million dollars with additional economic development and tax revenues anticipated. The site will feature a large conference center, performance space, and a 250 room hotel.

Payments to the city of Brockton will likely exceed 10 million dollars per year. More than 1,500 jobs are expected with preference given to Brockton residents. The casino will be required to engage local businesses and vendors to supply a significant portion of goods and services to the facility.

"The Chamber is pleased to welcome Rush Street Gaming to Brockton and the Metro South region. Their investment represents a diversification of entertainment options within our region while strengthening the climate for development in the city. Tax revenues generated by visitors and guests will stabilize city finances and provide increased support of amenities and services for the benefit of residents," said Christopher Cooney, CCE, President and CEO. "A 'Yes' vote on May 12 will allow Brockton to be considered for the last remaining destination resort license available. We think it's in the best interest of Brockton to be considered," he said.

Chamber Testifies at EPA Hearing - "Jobs at Stake"

Urges Increased Regional Use of Water/Sewer Facilities

Chamber Chairman of Economic Development Pat Ciaramella of OCPC and Chamber President and CEO, Christopher Cooney testified before the United States Environmental Protection Agency in support of flow measures for the Brockton Area Water Reclamation Facility (BAWRF). City, County, and State Department of Environmental Affairs officials have all endorsed a flow rate of 20.5 million gallons per day.

"If adopted, this would allow greater use of this important regional asset, prevent pollution from untreated effluent and provide revenues that would support debt payments, maintenance costs and anticipated improvements going forward," said Cooney.

Pat Ciaramella spoke of the benefits to the city and the surrounding communities. "There are a number of industrial parks and commercial districts in Avon, Easton, West Bridgewater and East Bridgewater that could be dramatically improved. These areas could produce greater revenues for Brockton, tax revenues to towns, and jobs to the region if this flow rate of 20.5 million gallons per day is adopted," he said.

The Chamber recently commissioned a study written by The University of Massachusetts Donahue Economic Development Center to assess anticipated benefits from expanding ratepayers and users of the BAWRF. Economies of scale, best practices, cost/benefit analysis were all highlighted in the report and point in the direction of greater cooperation when maintaining regional water and sewer facilities.

The Brockton Downtown Business Association also endorsed the 20.5 million gallons per day recommendation at its most recent meeting. The EPA is accepting written comments through April 15. Local business, community, and municipal boards and committees are encouraged to write them in support of the 20.5 gallons per day flow rate. Contact Chamber President and CEO Christopher Cooney for more information.

MA Sick Leave Law - Effective July 2015

Massachusetts Passes Earned Sick Leave

On November 4, 2014, Massachusetts voters approved a ballot initiative providing for earned sick time for employees. The Law takes effect on July 1, 2015, and will require certain employers to provide up to 40 hours of earned sick time per year to their employees for a wide variety of covered reasons.

Given the significant changes to sick time under the Law - including accrual, payment, usage, and documentation requirements - adjustments may need to be made in order to stay within compliance. It is expected that the Massachusetts Attorney General will be issuing rules and regulations for the Law in 2015.
