A STEWARD FAMILY HOSPITAL

### Good Sam. Joins Innovative Effort to Solve America's Drug Shortage Crisis

Good Samaritan Medical Center joins Civica Rx. Mission-driven initiative aims to ensure essential generic medicines are affordable and available to all. Good Samaritan Medical Center, a Steward family hospital, will be a part of Civica Rx, a new, innovative effort to ensure essential generic medications are available, affordable and accessible to all. Civica

Rx is a highly-collaborative not-for-profit generic drug company whose mission is to drive down costs and increase supply of life-saving medicines. Good Samaritan Medical Center's participation in the initiative is made possible thanks to the hospital being part of Steward Health Care, the largest privately operated health care network in the United States, and a founding member of Civica Rx. Good Samaritan Medical Center and Steward Health Care join prominent health systems, including Mayo Clinic and HCA Healthcare, to sign on with Civica. Overall, approximately 800 U.S. hospitals have joined the venture, with many more health systems expressing interest. Through a collaborative approach, the

partnership will identify the production needs of in-demand drugs and develop high-quality, FDA approved medications at affordable prices, closing gaps in the drug marketplace. "Good Samaritan Medical Center and Steward are proud to join Civica because a new, highly-collaborative approach is needed to solve America's drug shortage crisis," said Dr. Joseph Weinstein, Chief Medical Officer of Steward Health Care. "Over the past decade, Steward has created a different kind of health care company, one that prioritizes wellness and unlocks access to high-quality, affordable care - which aligns with the critically important mission of Civica." "We are thrilled to welcome these highly-regarded

health systems to Civica as founding members," said Martin VanTrieste, CEO of Civica Rx. "Drug shortages have become a national crisis where patient treatments and surgeries are canceled, delayed or suboptimal. We thank these organizations for joining us to make essential generic medicines accessible and affordable in hospitals across the country." Civica Rx expects to bring over 14 hospital-administered generic drugs to hospitals and health care systems in 2019 as the initial focus of the company's efforts, with many additional medications prioritized by the health care systems as the next phase of focus for the company. ## Ribbon Cutting in Brockton: Registrar of Deeds

Elected and Selected Officials gather for the ribbon cutting celebration of the new Plymouth County Registry of Deeds at 32 Belmont Street, Brockton.

Another celebration of investment and progress was held in Brockton recently with the addition of a brand new modern Plymouth County Registry of Deeds office on Belmont Street in downtown.

"It's a joy to see the public investment in downtown Brockton now being joined by so much private investment," said Chamber CEO, Chris Cooney while attending the recent ribbon cutting. "With more than 2500 new units of housing, complementing tens of thousands of square feet of new office and retail space already permitted, it's nice to see developers discovering what we already know. Brockton offers an extraordinary value so close to Boston and the growing population of Metro South. With the 800 acres of parks, 4 golf courses, 3 commuter rail stops and multiple centers for education and healthcare, Brockton is sure to experience a growing level of interest among many segments of the development community," he said.

## New Good Sam. CEO Elected to Chamber Board

Good Samaritan Medical Center President Marisela Marrero, MD and Chris Cooney, MSCC President & CEO.

New Good Samaritan Medical Center CEO, Marisela Marrero, MD and Chamber CEO, Chris Cooney recently met to discuss various topics of local, regional and sector concern. Good Samaritan, a division of Steward, is one of the largest employers in Brockton and the Metro South Region. They are also operating within the biggest industry sector in the region (health care) and pay more taxes than any other entity in Brockton. Their campus at exit 18 along route 24 is an extraordinary site with plenty of room for growth and expansion. The Chamber recently commissioned a study to inventory the site and explore expanded possible uses in the future. Good Samaritan is among the largest supporters of the Metro

South Chamber of Commerce and has consistently served on the Chamber Board. Marisela Marrero, MD, was recently elected to the Chamber Board at their most recent meeting in January.

Marisela Marrero, M.D. is a Harvard-trained Emergency Room physician with an interest in developing top-tier public healthcare knowledge within the Latino community and broadening the use of proper healthcare among Hispanic people.

She was the co-founder and chair of ALPFA Healthcare, an organization dedicated to the promotion and proliferation of Latino leaders. In addition to this, she served as the medical correspondent for both Telemundo Boston and NECN. Most recently, Marisela worked as VP of Clinical Operations at Good Samaritan Medical Center, focusing on efficiency and throughput within the hospital setting. With a sense of commitment and enthusiasm that is palpable, Marisela continues to raise the bar, and acts as a driving force at the forefront of healthcare improvement and change.

## Plans for Original Ocean Spray Site in Hanson

Metro South Chamber of Commerce CEO, Chris Cooney, recently met with Consultant and former Hanson Selectman, David Soper, to discuss various aspects of a proposal to renovate and preserve a historic building site in Hanson.

Ocean Spray Cranberry Cooperative was originally formed from this site in 1930, by three cranberry growers who wanted to expand their market for cranberries. Led by grower Marcus L. Urann, who had created a cranberry sauce, the cooperative developed more cranberry-based products. In the same year Ocean Spray became the first producer of cranberry juice drinks with the introduction of Cranberry Juice Cocktail. (A.D. Makepeace Company, one of the original founders of Ocean Spray, has been in continual operation since the late 19th century and is currently the world's largest grower of cranberries.)

Ocean Spray employs more than 2,000 people today with sales of 1.3 billion dollars annually. "It's great to discuss the extraordinary history of this site and even better the plans underway to strengthen the area with expanded mixed-use facilities", said Chris Cooney, Chamber CEO.

## Housing Need Rises at Fastest Rate in U.S.

To learn more, attend the Chamber Regional Roundtable February 22, at Southeastern Technical Institute in Easton at 11:45 am.

### NEED FOR MORE HOUSING

Massachusetts home prices have increased at the fastest rate in the nation, and metropolitan Boston rent prices rank among the highest in the country. The Commonwealth must add to its housing stock to support a growing economy and provide new housing choices.

But we can't do it alone: municipalities have control over local zoning and permitting, and they must be partners if the Commonwealth is to successfully overcome these housing challenges. Cities and towns are encouraged to adopt best practices and zoning that supports sustainable housing production.

The Housing Choice Initiative provides incentives, rewards, technical assistance and targeted legislative reform to encourage and empower municipalities to plan and build the diverse housing stock that the Commonwealth needs to continue to thrive.

### NEW AND BETTER COORDINATED TECHNICAL ASSISTANCE

To assist municipalities to achieve Housing Choice status, DHCD's Housing Choice Program Director coordinates existing technical assistance and provide "one-stop shopping" for information about technical assistance grants for local governments. In addition, MassHousing established the Planning for Housing Production grant program with \$2 million in planning assistance to help cities and towns take actions to implement affordable housing goals under Chapter 40B.

Learn more at [www.mass.gov/housingchoice](http://www.mass.gov/housingchoice)

### TRACK PROGRESS TOWARD THE HOUSING GOAL

The Housing Choice Initiative is tracking progress toward a goal of 135,000 new housing units statewide by 2025, or about 17,000 new units per year.

- This goal requires sustaining the level of production over the last three years
- Represents a 26 percent increase in housing production compared to the last eight years
- Keeps pace with projected increases in housing demand
- Closely aligned with the housing production goals required for designation as a Housing Choice community
